

The K-State Center on Aging Presents

Personhood & Dementia

Each individual has a unique story and these stories have the power to connect us regardless of experience, ability and stage in life. This workshop will focus on storytelling techniques you can use to unlock the stories of those you care for and how to tell your caregiver story to support others.

Our storytelling exploration will be guided by internationally acclaimed Irish storyteller Clare Murphy. She'll help us understand the art and craft of storytelling and why it is imperative to the maintenance of personhood in those with dementia.

Kim Richards of the Beach Museum will also share her work using visual thinking strategies to discuss artwork with persons with dementia and teach us how to facilitate this type of activity.

Everything is held together with stories.
That is all that is holding us together,
stories and compassion. . . . *Barry Lopez*

Thursday, April 7, 2016
9 to 11 a.m.
and
1 to 3 p.m.

KSU Alumni Center
1120 Alumni Center
Manhattan, KS 66506
