| Student learning outcome         | Specific outcome  | Core competencies   | AAMFTRB  | Code of ethics | AAMFT Supervision Handbook  |
|----------------------------------|---|---|--|----------------|---|
| 1. Marital and<br>Family Therapy | 1. Identify a personal "core theory" to guide clinical intervention**   |   |  |                |   |
|                                  | 2. Explore other theories and discover creative ways of accommodating those theories with the "core theory"                         |   | 03.10 Integrate multiple types and sources of information while conducting therapy.  |                |   |
|                                  | 3. Facilitate the co-evolving therapist-client relationship   | 1.3.6 Establish and maintain appropriate and productive therapeutic alliances with the clients.   | 01.06 Establish therapeutic relationship(s) with the client system.  |                |   |
|                                  | 4. Evaluate and identify problems in therapist-client relationships   |   | 01.07 Attend to the interactional process between the therapist and client (e.g., therapeutic conversation, transference, and countertransference) throughout the therapeutic process. |                |   |
|                                  | 5. Demonstrate sensitivity to contextual variables such as culture, gender, ethnicity, and economics                                | 1.2.1 Recognize contextual and systemic dynamics (e.g., gender, age, socioeconomic status, culture/race/ethnicity, sexual orientation, spirituality, religion, larger systems, social context). | 01.04 Demonstrate sensitivity to the client's context(s) (e.g., spirituality, gender, sexuality, culture, class, and socio-economic condition).  |                |   |
|                                  | <b>6.</b> Identify and develop an area of clinical expertise  |   | 05.03 Practice in accordance with one's own area of expertise (i.e., education, training, and experience   |                |   |
| 2. Clinical<br>Supervision       | Demonstrate what they think about treatment and supervision relational terms  |   |  |                | Required course content: Purpose and goals of supervision   |
|                                  | 2. Demonstrate awareness of patterns and sequences of replication at various system levels  |   |  |                | Required course content: Systemic MFT thinking as applied in therapy, supervision, mentoring, and the isomorphic dynamics among different levels of the training system |
|                                  | 3. Demonstrate a clear theoretical orientation by articulating his/her philosophies of therapy and supervision as well as the clear |   |  |                | Required course content: Articulation of a systemic personal philosophy or approach to supervision and how it integrates with   |

|                  | connection between them              |                                 |  |                          | therapy approaches                   |
|------------------|--------------------------------------|---------------------------------|--|--------------------------|--------------------------------------|
|                  | 4. Demonstrate theoretical           |                                 |  |                          | Required course content:             |
|                  | consistency, whether from one        |                                 |  |                          | Articulation of a systemic personal  |
|                  | prominent model or from an           |                                 |  |                          | philosophy or approach to            |
|                  | integrative perspective with a       |                                 |  |                          | supervision and how it integrates    |
|                  | logical integration of models        |                                 |  |                          | with                                 |
|                  | logical integration of models        |                                 |  |                          | therapy approaches                   |
|                  | 5. Present a rationale for the       |                                 |  |                          | Required course content:             |
|                  | choice of supervisory methods        |                                 |  |                          | Articulation of a systemic personal  |
|                  | and how the methods facilitate       |                                 |  |                          | philosophy or approach to            |
|                  | achievement of supervision           |                                 |  |                          | supervision and how it integrates    |
|                  | goals                                |                                 |  |                          | with                                 |
|                  | 80013                                |                                 |  |                          | therapy approaches                   |
|                  | <b>6.</b> Demonstrate sensitivity to | 1.2.1 Recognize contextual      | 01.04 Demonstrate sensitivity to the     |                          | Required course content:             |
|                  | contextual variables such as         | and systemic dynamics (e.g.,    | client's context(s) (e.g., spirituality, |                          | Contextual factors to include in     |
|                  | culture, gender, biology,            | gender, age, socioeconomic      | gender, sexuality, culture, class, and   |                          | therapy and training contexts (such  |
|                  | ethnicity, family of origin and      | status, culture/race/ethnicity, | socio-economic condition).               |                          | as graduate versus post-graduate     |
|                  | economics                            | sexual orientation,             | ,  |                          | supervisees, agency versus private   |
|                  |                                      | spirituality, religion, larger  |  |                          | practice), trainee development,      |
|                  |                                      | systems, social context).       |  |                          | and factors such as gender,          |
|                  |                                      |                                 |  |                          | ethnicity, race, ability, age,       |
|                  |                                      |                                 |  |                          | spirituality, sexual orientation,    |
|                  |                                      |                                 |  |                          | economics, and so forth              |
|                  | 7. Demonstrate knowledge of          |                                 | 05.06. Demonstrate professional          | Principle IV.            | Required course content:             |
|                  | ethical and legal issues of          |                                 | responsibility and competence in         | Responsibility to        | Jurisdictional legal factors such as |
|                  | supervision                          |                                 | forensic and legal issues (e.g., court-  | Students and Supervisees | duties to report or warn, working    |
|                  |                                      |                                 | ordered cases, testimony, expert         |                          | with minors in therapy,              |
|                  |                                      |                                 | witness, custody hearings, etc).         |                          | recordkeeping, and so forth;         |
|                  |                                      |                                 |  |                          | Processes for attending to ethical   |
|                  |                                      |                                 |  |                          | factors in therapy and supervision   |
|                  | 1. Demonstrate overall               |                                 |  |                          |                                      |
|                  | effectiveness as a teacher**         |                                 |  |                          |                                      |
|                  | 2. Demonstrate that they are         |                                 |  |                          |                                      |
|                  | well prepared for class**            |                                 |  |                          |                                      |
|                  | 3. Demonstrate competence in         |                                 |  |                          |                                      |
|                  | subject matter taught**              |                                 |  |                          |                                      |
|                  | 4. Demonstrate that course           |                                 |  |                          |                                      |
| 2 Teachtre       | content, including assigned          |                                 |  |                          |                                      |
| 3. Teaching      | readings are current and             |                                 |  |                          |                                      |
|                  | represent the most up to date        |                                 |  |                          |                                      |
|                  | information on the subject**         |                                 |  |                          |                                      |
| 4 Doceans        | 1. Demonstrate progress              |                                 |  |                          |                                      |
| 4. Research<br>& | toward developing a personal         |                                 |  |                          |                                      |
| &<br>5. Research | research agenda**                    | 6.1.2 Understand research       |  |                          |                                      |
